THE PROBABLE SURPLUS

Work of the Appropriations Committees of Congress.

Last Year's Figures Exceeded by Seventeen Millions.

The Probable Surplus Estimated at Seventeen Millions.

Powderly to Testify in the Immigration Investigation.

The Probable Surplus.

Washington, August 20.—A tonight estimate of the appropriations committee August 15th shows the grand total of appropriation is $322,263,720.50, an excess over last year of $61,064,731.81. The total estimated revenue for 1889 is $340,500,251.82. Since the 15th the fortification bill has been reported two and a half millions, and probably three millions more will make the probable surplus for the next fiscal year something over seventeen and a half millions.

Powderly on Imported Labor.

New York, August 20.—General Master Workman Powderly testified before the immigration committee today on the subject of imported contract labor. He said that this system was most reprehensible. Describing the condition of workers in Pennsylvania mines, he said it was simply indescribable. In the coal regions native miners have been driven out by Hungarians and other cheap foreign workingmen, who live in a filthy state on the cheapest kind of food, so that American miners cannot compete with them. Their sleeping quarters are disgusting, their immorality startling. The universal opinion of American workmen, said Powderly, is that men who work along the line of the Pennsylvania railroad, Hungarians and Italians, who are engaged only by railroad contractors, during the period when coal is not mined, should be prevented from coming to this country. The system of importing foreign contract labor is not desirable. American citizens, coming to this country to find employment, should be given the preference. He thought no person should be a voter in citizenship until he was able to read and understand the declaration of independence and the constitution of the United States. All foreign consuls abroad should be required to report on the character of men who leave foreign countries for the United States.

Stock Markets.

New York, August 20.—The stock market today was dull except for leading stocks, but generally steady. Prices [illegible]

Petroleum opened firm at 2c, but became weak and declined 1 to 85½ in early trading. Buying by Standard Oil Co. brokers then advanced the price to 86½, after which there was a slight reaction and the market closed steady at 86.

Cyclone in Michigan.

Manistique, Mich., August 20.—This afternoon a cyclone struck the city. When directly over the centre of the city it suddenly dropped, and for a few minutes the greatest havoc prevailed. The storm moved in a circle. The roofs of many business blocks were torn off, telephone and telegraph wires were prostrated, plate glass windows demolished, shade trees torn up, and the streets blockaded with debris. Rain and hail fell in torrents and swirled through an roofless houses, ruining thousands of dollars worth of merchandise.

At St. Louis—St. Louis 1, Brooklyn 0.

The Rock Island.

Yesterday's issue of the Denver Republican contained the following: "A Topeka special to the Kansas City Journal says that while there has not been much noise this year from railroad people, the Chicago, Kansas & Nebraska (Rock Island route) has been doing some good work and keeping continually in view the completion of its system as outlined in 1887. Work is progressing rapidly on the Colorado Springs extension. The grading being very nearly completed to that point. The track layers are now seventy-four miles west of the west line of the state and are progressing at the rate of two and one half miles a day. It is the purpose of the management to complete the track and run a train into Colorado Springs by October 10, which will at present be the end of track laying in that direction. Ingenious arrangements have already been made with the Denver & Rio Grande road by which the Rock Island will reach both Denver and Pueblo and connect at Colorado Springs with the Midland for Leadville. The Rock Island will cross the Union Pacific at River Bank in Colorado. It was at one time intended to make a track agreement with that road, Denver from this crossing point but this was finally given up and better arrangements made with the Rio Grande. The Santa Fe is doing but little construction work in the state this year, confining the building of new lines to the extension northward from Concordia. The work done last year has been gone over and all new lines put in excellent condition.

CITY COUNCIL.

Regular Meeting of the City Council Last Evening.

The Ordinance Extending the Fire Limits Passed.

Appropriation Made to Repair Damages by the Recent Flood.

The Ordinance Relating to Cattle Fails to Pass.

A regular meeting of the city council was held last evening with Mayor Strickler presiding and Aldermen Skinner, Bartlett, Lawton, Stevens, Hunibaugh, Stubbs and Kennedy present. The minutes of the previous regular and adjourned meetings were read and approved.

At request Skinner, from the committee on sewers, reported that General Palmer had agreed to permit the sewer main to be laid across his property on North Cascade street. He said that General Palmer had objected to the main being laid across his property under any considerations, and that his objections were not matters of dollars and cents. He said that General Palmer had signed the petition for the vacation of twenty feet on Cheyenne avenue, and had then agreed to give the right of way for the sewer main. He thought that General Palmer's fears of sewer gas were not so powerful when he was going to get twenty feet added to his property. However General Palmer offered to pay all the expense of laying the main around his premises.

On motion of Alderman Hinebaugh the committee were authorized to procure the right of way across the property under the direction of the city attorney.

Upon a report from the committee on streets and ditches, reported that last Friday's storm had demolished the flume, carried away the dam in the creek above the flume, and damaged the mesa road badly. He thought that the total damage would amount to $250. The committee had taken steps to have these things repaired.

Alderman Stubbs introduced an amendment to the ordinance on fire limits, extending the limits as far north as Pikes street.

On motion of Alderman Stubbs the rules were suspended and the ordinance was passed by the following vote:

Ayes—Skinner, Hinebaugh, Stubbs, Lawton, Stevens, Bartlett, Mayor—7.

Nays—None.

The ordinance relating to cattle, introduced at a previous meeting, was then taken from the table for consideration.

On motion of Alderman Lawton the ordinance was put upon its passage. The vote resulted:

Ayes—Lawton, Skinner, Stubbs, Bartlett, Hinebaugh, Stevens, Mayor—6.

Nays—Kennedy—1.

The mayor declared the ordinance rejected.

The following bills were audited and allowed:

E. S. Brinsmaid & Bro., repairs	$ 6 00
John Lennon, furniture	14 00
H. C. McClintock, cash advanced	20 35
E. C. Hartson, repairs	24 00
H. Cowperthwaite & Co., coal	31 00
G. S. Barnes & Son, supplies	3 00
S. S. Tegarden, blacksmithing	3 00
Gazette & Antelope, printing	3 50
A. M. Preston & Co., supplies	5 00
A. McClure, repairing	5 00
J. Fo[illegible]	50
Street and ditch work, per Harris	60 00
Street and ditch work, per Cara	18 00
Carpenter work, per Dyer	30 00
Underground work, per Harris	8 00

Alderman Hinebaugh introduced the following resolution which was adopted:

Resolved, That the city engineer be directed to extend a 12 inch main from the end of the pipe on Uintah street, opposite block 219, for a distance of 200 feet.

Alderman Lawton offered the following preamble and resolution:

Whereas, A flood having occurred on Monument creek on the 18th day of August, 1888, taking away the dam above the flume, and the flume, and seriously damaging the approaches to several bridges, and injuring some of the streets in the city of Colorado Springs, thereby a casualty. Therefore be it

Resolved, By the city council of the city of Colorado Springs, that the committee on streets, alleys, bridges and ditches are hereby authorized and directed to have all damages repaired that they deem necessary, and that the city clerk is hereby directed to issue warrants for the same not to exceed $500.

Alderman Skinner said that he did not like to oppose the resolution, but as long as $5000 remained in the fund for the irrigating reservoir east of the city, he believed that the money should be taken from that fund. He would always oppose the expenditure of a single cent upon the reservoir, as he believed the project to be impossible and impracticable. He did not know where the water was to come from to fill it, and [illegible] was to be used [illegible] the city of the new reservoir was not concerned in the question at issue.

The resolution was adopted by the following vote: Ayes—Skinner, Lawton, Bartlett, Stubbs, Hinebaugh, Stevens and Lennox.

Mayor Strickler announced that in accordance with the proclamation of the governor he would appoint Aldermen Lawton and Hinebaugh as delegates to the irrigation convention.

The council then adjourned.

The Afro American Republican club met at their hall on Huerfano street last evening and elected the following named gentlemen as delegates to the state league convention, to meet at Denver September 5th: D. E. Johnson, C. W. Collins, C. B. Robinson, J. W. Allen, William Achley, alternates, J. H. Childress, J. Moore, Mr. Jackson, W. R. Thompson, Sr.

Tuesday Morning's Storm.

Rawlins, Wyo., August 20.—The latest dispatch from the Dana train robbers is that they are fifty miles north of Medicine Bow river, having crossed at Cooperwood ford, and are heading into Shirley basin and the surrounding timbered mountains. The Rawlins posse are twelve miles behind, and just on the trail. A courier was sent with this dispatch to Medicine Bow. There are two robbers leading a pack horse. If they get into Shirley basin their capture will be almost impossible.

Yesterday Morning.

Rawlins, Wyoming, August 20, 6 p. m.—A telegram was just received at the Journal office stating that all hopes of capturing the men who attacked the Union Pacific passenger train at Dana station has been abandoned. The Rawlins posse followed them over 125 miles to Laramie peak, where the trail was lost on the rocks. The rocky nature of the surface of the country, interspersed with dense timber, prevented the horsemen from making any trail, and rendered it impossible to find the gang. The possemen have headed homewards with their tired horses.

The Yellow Fever Outbreak.

Jacksonville, August 20.—Two suspicious cases of fever has been reported since six o'clock yesterday evening. One death at Sand Hills.

Washington, August 20.—Dr. Posey of the Louisiana board of health has been instructed by Surgeon General Hamilton to visit Orlando, Sanford and other towns in Florida to ascertain their condition.

Tampa, Fla., August 20.—Houses and effects are fumigated as the sick get well; the authorities having them cleaned and disinfected since death.

Harrison's Vacation.

Toledo, O., August 20.—General Harrison will have nothing else to occupy him after arriving here at 1:30 in the afternoon. Arrangements have been made for a public reception and speech in the evening, to be followed by a torchlight procession. On Wednesday Governor Foster and Mrs. Harrison will be driven to Fremont, and Mr. Wm. Cummings of this city, and Mr. Wm. Cummings of this city, whose joint guests they will be, will be over to Middle Bass on Colonel Reynolds' steam yacht.

The Weather Interfered.

Cincinnati, August 20.—General Harrison will leave today for Middle Bass Islands, on Lake Erie, [illegible] Put-in-Bay, [illegible] throughout the day, dazzling sun fell throughout the day, and as the trip contemplated a forty miles sail on Lake Erie it is thought the weather debarred him from beginning his journey today.

Thurman's Political Tour.

Toledo, O., August 20.—About 1 o'clock this afternoon a special bearing Judge Thurman and party left Columbus on the way to Put-in-Bay, via this city. On the Old Roman the party consisted of Congressman Outhwaite of Zanesville, W. Thurman and son Lee, P. P. Lyons of Columbus and several newspaper correspondents. Judge Thurman has been feeling [illegible] well but walked erect and firm. At Elmwood the train stopped for a moment, but the first crowd was encountered at Perrysburg, and in response to numerous calls Judge Thurman spoke briefly. The train pulled out as the crowd gave three cheers for the candidate. A crowd on a high fish next to the city of Toledo. Pro rata[illegible] and above the [illegible] was a large one. A very enthusiastic crowd was at the depot at Delaware and the [illegible] with banners [illegible]

REPUBLICAN STATE CONVENTION.

Headquarters of the Republican State Central Committee,
DENVER, Colorado, July 28, '88.

In accordance with the action of the republican state central committee, a convention of the republican party of Colorado is hereby called to meet at Denver, on Tuesday, the 4th day of September, A. D. 1888, at 10 o'clock a. m., for the purpose of nominating the following candidates for the state offices, to be filled at the state election to be held on Tuesday, the 6th day of November, A. D. 1888, to-wit:

One representative to the Fifty-first congress of the United States.
One governor of the State of Colorado.
One lieutenant governor of the state of Colorado.
One state treasurer.
One secretary of state.
One auditor of state.
One attorney general.
One superintendent of public instruction.
Two regents of the state university of Colorado.
One judge of the supreme court of Colorado.
The said state convention will also elect
Three republican presidential electors for the state of Colorado.

One chairman of the state central committee and one committeeman from each county in the state to constitute the republican state central committee for the ensuing two years.

To such other business as may properly come before said convention.

The several counties of the state will be entitled to representation in said convention as follows:

Arapahoe	8	Huerfano	3
Archuleta	2	Jefferson	3
Bent	3	La Plata	3
Boulder	5	Lincoln	3
Chaffee	6	Mesa	3

Fremont	6	San Miguel	3
Garfield	3	Summit	2
Gilpin	3	Washington	3
Grand	2	Weld	7
Gunnison	3		
Hinsdale	2		
Total			161

It is desirable to have all delegates present at said convention.

H. A. BRUSH, Secretary.

CALL FOR REPUBLICAN COUNTY CONVENTION.

HEADQUARTERS REPUBLICAN CENTRAL COMMITTEE,
COLORADO SPRINGS, Aug. 9, 1888.

In pursuance of the action of the county central committee a convention of the republican party of El Paso county is hereby called to meet in the court house hall at Colorado Springs, on Saturday, September 1st, 1888, at 1 o'clock p. m., for the purpose following:

To elect fifteen (15) delegates to represent El Paso county in the republican state convention, to be held in Denver on Thursday, September 6th, 1888, at 12 o'clock p. m., to nominate candidates for the state offices in accordance with the call for said state convention; and to appoint El Paso county's delegates to the republican judicial district convention of the Fourth judicial district of Colorado, to be held hereafter to be called at Denver at the time of the state convention, to nominate candidates for district judge and district attorney for said district.

To nominate a candidate for the following offices to be filled by the people of said county at the general election to be held Tuesday, November 6th, 1888, as follows:

Two representatives in the general assembly, one county commissioner and for such other business as may properly come before said convention.

The several precincts are entitled to the following votes as stated:

Precinct No. 1—Eastonville	2	Precinct No. 11—Fountain	25
Precinct No. 2—Table Rock	2	Precinct No. 12—El Paso	2
Precinct No. 3—Nebo	2	Precinct No. 13—Summit Park	2
Precinct No. 4—Husted	4	Precinct No. 14—Florissant	2
Precinct No. 5—Cripple Creek	2	Precinct No. 15—Manitou	5
Precinct No. 6—Colorado Springs		Precinct No. 16—Four Mile	1
Ward No. 1	6	Precinct No. 17—Pine View	1
Ward No. 2	6	Precinct No. 18—Edgerton	2
Ward No. 3	6	Precinct No. 19—Big Sandy	2
Ward No. 4	7	Precinct No. 20—Templeton	2
		Precinct No. 21—Franceville	2
		Precinct No. 22—Granger	1
		Precinct No. 23—Hayden Divide	1
		Total	61

The basis of apportionment is the same as that of the state convention.

The committee recommend that the several precincts hold their primaries on Wednesday, August 29th, 1888, at 3 o'clock p. m.

For the committee—

J. W. D. STOVELL, Secretary. JOHN CAMPBELL, Chairman.

Chairman Brice made an unfortunate remark in saying that candidates should help themselves. If anything would make absolutely certain the election of Harrison and Morton, it would be Cleveland's removal of Postmaster Pearson in New York.

If it should be true that the appropriations are so large this year that they will materially diminish the surplus, the tax ought not to be taken off of tobacco. It is purely a luxury. The tax is not a burden on the people. Neither the manufacturer of tobacco nor the consumer is demanding the repeal of the tax. We must keep up the internal collection machinery to collect the tax on whiskey, and it does not practically increase this service to collect a tax on tobacco.

General Young, in an address to the confederate veteran at Greenville, South Carolina, said, "People may make you believe that there is a new south, but such is not the case." Then he goes on to show that the leaders in the south today were the leaders in the war of the rebellion. This is very naturally the case, because the intelligence and ability of the south were practically unanimous in favor of the rebellion. But General Young is a little unfortunate in drawing attention to the proportion of democrats in congress who were to the confederate army. In the house there are fifty-seven of the one hundred and fifty-seven democrats who were confederate soldiers, while in the senate, twenty-two out of the thirty-five democrats were confederate soldiers. [illegible] impress his audience with the fact that there is no new [illegible] south, and that it has the same leaders now as in '61. He may be right, but it is hardly best to emphasize the fact.

We have received a supplement to the New York World, dated August 22nd, which is entitled, "The Bulwark of Wages." The article in the introduction contains the following paragraph which we presume, is made up of unquestioned statistics:

"We have 17,893,000 wage-earners, of whom 10,500,000 are the highest-paid in the [illegible] 7,393,000 of these [illegible] wages, and 3,000,000 are working for foreign wages and in foreign markets for foreigners' supplies and workers here, while [illegible] and the payment for which must be [illegible].

"Fifteen years ago the wages received by those engaged in the same industries in different parts of the country. The comparisons are based upon the census of 1880. The tables show that there is apparently as great a difference in wages received by the laboring people in the same industries in different parts of the United States as there is between the wages received by the laboring people of this country and those of England engaged in the same industry. But there is a fatal defect in all these comparisons. The tables give the average number of workers, the total wages, the average yearly wages and average weekly wages. Comparisons are made with the average weekly wages; and it appears, for example, that the file maker in St. Louis will receive fifty per cent more in wages than the file maker in Boston. But the comparison may be a very deceptive one, for the reason that the time the mill was actually operated is not given. For example, if the file factory happened to be started on the first day of July of the year in which these statistics are given the wages earned for the six months are given as the wages for the whole year. As these wages for the year are divided by fifty-two instead of twenty-six, the average weekly wages appear only half as great as were actually paid. A very good illustration of this is given in the rolling mills. It appears that the weekly wages for the mechanics in the rolling mill in Pennsylvania is eight dollars and twenty nine cents, while the average weekly wages given for Colorado is one dollar and [illegible] cents. As a matter of fact—we presume that the men employed in the rolling mills in Colorado receive higher wages than those employed in the same work in Pennsylvania. The reason that the wages appear so small in Colorado must be due to the fact that the mill was in operation only a month in the year for which these statistics are given. The statistics to have any value must give the part of the year that the men were actually employed. According to this statement the actual yearly wages in a Colorado rolling mill were fifty six dollars. If we were to divide the fifty six dollars by the number of weeks in that year that the men actually work, then the quotient would show the weekly wages in that mill. The Colorado example is rather an extreme one, showing the insecurity of these tables for the comparisons which the writer makes. The World has attempted to prove so much that it has not proven anything. It is of the utmost importance that we should know the truth about the effect of protection on wages. We shall not know the truth this campaign because partisanship is so large a part of the discussion. But the discussion may do good in arousing inquiry that will lead to the truth. The subject ought to be investigated as carefully, accurately and impartially as we would try to determine the height of Pike's Peak.

STATE NEWS.

Montrose county has lately been visited by very heavy rains.

The democratic judicial convention at Montrose nominated J. C. Bell for district judge.

[illegible] republicans [illegible] county [illegible] Hon. D. P. Kinsley for state treasurer.

Over $100,000 has been paid for coal last season at the Glenwood Springs Land office since the first of the year.

A Harrison and Morton flag waves from the top of Curricanti Needle, one of the highest pinnacles of curious rock formations in the state.

Russia's Attitude Explained.

ST. PETERSBURG, August 20.—It is stated that Italy's note in relation to the seizure of Massowah does not affect Russia's attitude on the question. Russia will conform to the views of Turkey, whose interests are prejudiced by the seizure.

Weather Indications.

WAR DEPARTMENT,
WASHINGTON, D. C., Aug. 20, 10 p. m.

Indications for twenty-four hours commencing 7 a. m., Tuesday, August 21.
For Colorado, Fair, nearly stationary temperature, variable winds.

TELEGRAPHIC BREVITIES.

Malieton, the deposed King of Samoa, will be brought to Germany.

The Cologne Gazette says that Prince Bismarck will resign his office of Prussian minister of commerce and industry.

A hurricane of terrific force struck the steamship British King off the Great Banks, injuring six of her crew.

Harlan & Wolff, ship builders at Belfast, have closed their yard, owing to a partial strike of employes. Five thousand hands are affected.

Brigadier-General Ab. Alexander, inspector general, has been placed on the retired list. Colonel Roger Jones has been appointed to succeed, with the rank of brigadier general.

The steward of the British ship Dorcy Hall, sentenced to be hanged for murderous [illegible] during the voyage from San Francisco to Liverpool, has been reprieved.

Representative Breckenridge of Arkansas, who dissented from the tariff bills in the house yesterday, [illegible] Democrats in Illinois, they are united in [illegible] certain abuses arising under the present tariff laws.

The funeral of Charles Crocker, late vice president of the Southern Pacific, was held yesterday. The services were very simple. The remains were temporarily interred in Laurel Hill cemetery, San Francisco.

A CLOSELY EXPERIENCE.

Catching Fresh Water Rivalries with Hook and Line.

[Special Correspondence.]

NEW YORK, Aug. 16.—A party of us who [illegible] May fishing. When we arrived at a Tennessee town to fish our luck on Duck river, the mayor [illegible] that the fish were [illegible] [illegible] Monument. We [illegible] and [illegible] fish. [illegible] and wandering [illegible] the quaint old [illegible] and rustic bridges [illegible]. The [illegible] was [illegible] a shoal, and I argued that, if the fish were spawning on the shoals they could be [illegible] from over-fishing. I took a red [illegible] pocket companion [illegible] fish [illegible] sinker on near the hook to retard progress in the rapids, baited with a large fresh minnow and made a cast of 300 feet into the middle of the stream. The line crept down gradually and [illegible] about [illegible] circle when a [illegible] struck. I was elated, the men excited and the guide fearful. I reeled in with the [illegible] that I all my experience in fishing the waters of the continent the Duck rivers species had the majority. The annual acted like a log. He didn't pull back, he seemed to roll up, over and over, and rather enjoyed [illegible]. A black object was seen to follow the line, as it [illegible] like a turtle, caused many [illegible] and then [illegible]. When [illegible] we were all astonished. The [illegible] [illegible], which [illegible] and [illegible] Against [illegible] I [illegible] the ball. I [illegible] and [illegible] or a fresh water clam closing his shell on [illegible] before and naturally presumed he had been irritated by contact with it and closed his shells [illegible] fear. I took a big stone to release the bait, and I made a second cast with the same result. Twenty casts; realized twenty bivalves, none weighing less than a pound. The bet was declared off.

W. H. BALLOU.

Some Foreign Notes.

[Special correspondence.]

LONDON, Aug. 8.—Marriages seem going out of fashion in England. In 1876 the average percentage was 17.5 per 1,000. In 1887 [illegible] to only 15.1. The decline is the same in Scotland, Wales and Ireland. In Prussia, Austria and Italy the percentage has increased. The Scotch have always made a bad showing in illegitimacy, and in the decline of marriage their rate is lower than that of any European nation.

While talking about ages it is interesting, and in one way rather alarming to notice how old the best English writers are growing. Tennyson is 78, Browning [illegible], Gladstone 78, Matthew Arnold was 65, though he looked ten years younger. And English statesmen are getting on, or, shall we say, getting ready to get off. Gladstone is over 78, Bright 76, Lord Granville 73, Lord Salisbury 71, Lord Chancellor Halsbury is only 63, and Lord Salisbury 58.

Ruskin is a queer man. When he gets on his philanthropic-[illegible] hobby he is a regular crank. We don't hear so much lately about his St. George's museum at Sheffield, which is to [illegible] into the coming Bethlehem. His father left him a good big fortune, made in the wine trade.—When The Magazine of Art asked how much he wanted for an article he had written for it, he replied: "A penny a line." But he extorts the highest prices in the trade for his books, and keeps an old servant as his sole [illegible]. The trade got so well out of Ruskin. Like Lord Byron, he would have liked the revision committee to have amended a certain [illegible] so [illegible]. "Now Barabbas was a publisher." He married, but made a woeful [illegible]. His wife was bitterly disappointed at his merely Platonic theory of marriage. She left him at last and has long been the wife of Sir John Everett Millais, the greatest painter of the Victorian era.

TUBERCULOSIS.

Result of the First International Congress of Physicians--Our Greatest Enemy.

IN THE OPEN

Close Correspondence of a Reporter.

Hotel de Henry,
Paris, 28 Rue de Rivoli, Aug. 1.

The first international congress of physicians ever held in Paris has just closed its session. The last day was devoted to the consideration of the question of tuberculosis, and the discussion was participated in by the most eminent physicians from all parts of the world. The meeting was held in the amphitheatre of the Ecole de Medecine, and was presided over by Dr. Peter, the dean of the faculty of medicine. The hall was filled to its utmost capacity, and the interest manifested in the proceedings was intense. Many of the most distinguished physicians present were unable to obtain admission to the hall, and were compelled to content themselves with standing in the corridors and listening to the discussion through the doors. Among the prominent physicians present were Dr. Villemin, who was elected chairman of the second tuberculosis congress, which is to meet in Paris in 1890, kindly giving me much of the following information on the subject with me.

"Tell me the results of the congress," said I.

"One strong scientific result," replied Dr. Villemin, "has been the bringing together of so many doctors, helping them to know what point medical science had reached, what was now in their own hands and what was old. The papers read have not been altogether novel but for the first time they directed the attention of the public to the chief cause of tuberculosis. By tuberculosis, which includes other forms of the same disease, Meningitis, white tumors, scrofula, consumption, etc. These are now admitted to be tuberculosis. The disease is very communicable through the digestive organs, or the blood by inhalation, or the inoculation of germs contained in the saliva of patients. For instance, we have inoculated numbers of animals, cows, rabbits and guinea pigs with scraps of saliva. Many took the disease and died with the same symptoms as human beings."

HOW CONTRACTED.

Men and women are constantly expectorating tuberculous breath and getting it into their mouths and nose. This is how many cases happen. A consumptive coughs on a dirty sidewalk spits on a bundle of hay, the cow eats the hay and gets the disease. The sputum of a consumptive is full of germs. If the cow is milked, some one drinks the milk, and if it is sold to take the disease he gets consumption. Many strong people, of course, escape, and in a measure the stronger the general health and constitution the less likely is the person to get the infection. But the proportion liable is very large. Over one fifth of the population of the world dies of tuberculosis. In Paris alone 12,000 persons die annually of consumption. Well authenticated cases are known where consumptives have lived with healthy persons for years without communicating the disease. Many thought it was hereditary, but it is now known that the germs of consumption are carried in the air, and that the predisposition to the disease is inherited. Dr. Villemin has proved that by inoculation. Dr. Koch says that if consumptives would spit into a cup containing a solution of carbolic acid, the disease would soon disappear. Dr. Koch says that if consumptives would spit into a cup containing a solution of carbolic acid, the disease would soon disappear.

THE CURE IS EASY.

Having established so much, continued the doctor, we went on to the conclusion that though hereditary it may, in many instances, explain that an ancestor dies of consumption, the descendant is not liable to disease unless he eats tuberculous meat or milk. Our great enemy is the cow. Against her and her brother, the ox, the chief preventive is always to boil your milk thoroughly and heat your meat well done. It is only a mistake to imagine that scrofula, a kind of tuberculosis, and consumption are peculiar to cold and damp climates. The disease is widely spread in Australia. The case of a lady, a patient who died six months ago of consumption, simply through drinking blood taken from an apparently healthy cow, is a striking illustration of the prevalence of tuberculosis.

HOW NOT TO CURE.

There is no absolute immunity against the disease. Plenty of fresh air, proper food, etc., will certainly help any person to resist the disease, just as certainly as poor living, bad surroundings, etc., would contribute to its development. We can say, however, that there are certain predisposing causes which facilitate the introduction of consumption into the organism. Among these causes are overwork, mental anxiety, insufficient nourishment, and, in a word, all that debilitates the system. The property of one's blood is also a factor. Tuberculosis is generally hereditary. It is transmissible between man and animals by inoculation and through the respiratory and digestive organs by means of infected air, food or drink. Hence the necessity of strict sanitary precautions as a means of prophylaxis. In the early diagnosis of doubtful cases the tuberculine of Dr. Koch says more of scientific value than all the sputa, and as a means of verification, a rabbit may be inoculated with the suspected sputa and killed after two months. An autopsy of the rabbit settles the question.

A REMEDY CAN AND TO BE FOUND.

Supposing it established that a man has consumption, and, what hope have the medical authorities of to-day to give him an ultimate cure?

That is the sad part of it, was the reply. A specific against tuberculosis will be found. At present we are obliged to base our treatment upon climate, food and medication. The latter is still powerless to do more than afford a temporary relief. As regards food, the great concern is that it be nourishing, easily assimilated, and rich in milk, the chief anchor of consumptive diet, be free from the germs of tuberculosis. There remains the climatic treatment—our chief hope. Medicine of air will not cure the consumptive, doctors can do little. I have made a special study of this portion of the subject, and consider it of the utmost importance. If [illegible] have learned is that consumptives should not shut themselves up in city rooms, should even sleep with windows open, lighting fires, wrapping themselves up if necessary to avoid chill. Then we have now settled that the disease is contagious. These results we owe first to Dr. Villemin, next to Dr. Chauveau, and third to Dr. Koch, who discovered the bacillus by which tuberculosis is transmitted. The importance of the congress may be guessed when I tell you that cases of tuberculosis have increased nearly twenty-five per cent within the last twenty years."

DEATH IS INEVITABLE.

Dr. Villemin, who was elected chairman of the second tuberculosis congress, which is to meet in Paris in 1890, kindly gave me much of the following information on the subject with me.

"Tell me the results of the congress," said I.

"One strong scientific result," replied Dr. Villemin, "has been the bringing together of so many doctors, helping them to know what point medical science had reached, what was now in their own hands and what was old. The papers read have not been altogether novel but for the first time they directed the attention of the public to the chief cause of tuberculosis. By tuberculosis, which includes other forms of the same disease, Meningitis, white tumors, scrofula, consumption, etc. These are now admitted to be tuberculosis. The disease is very communicable through the digestive organs, or the blood by inhalation, or the inoculation of germs contained in the saliva of patients. For instance, we have inoculated numbers of animals, cows, rabbits and guinea pigs with scraps of saliva. Many took the disease and died with the same symptoms as human beings."

HOW CONTRACTED.

Men and women are constantly expectorating tuberculous breath and getting it into their mouths and nose. This is how many cases happen. A consumptive coughs on a dirty sidewalk spits on a bundle of hay, the cow eats the hay and gets the disease. The sputum of a consumptive is full of germs. If the cow is milked, some one drinks the milk, and if it is sold to take the disease he gets consumption. Many strong people, of course, escape, and in a measure the stronger the general health and constitution the less likely is the person to get the infection. But the proportion liable is very large. Over one fifth of the population of the world dies of tuberculosis. In Paris alone 12,000 persons die annually of consumption. Well authenticated cases are known where consumptives have lived with healthy persons for years without communicating the disease. Many thought it was hereditary, but it is now known that the germs of consumption are carried in the air, and that the predisposition to the disease is inherited. Dr. Villemin has proved that by inoculation. Dr. Koch says that if consumptives would spit into a cup containing a solution of carbolic acid, the disease would soon disappear.

WHERE THE PATIENT SHOULD GO.

"I refer to such places as Thomasville, Ga., and Summerville, S. C. If the consumptive is free from heart trouble he should go to some elevated region, such as Colorado Springs, or Albuquerque, N. M. The air on those western plains is almost perfect. In mentioning localities I do not omit Davos, Switzerland, or the Adirondacks."

Dr. Andre Martinez Vargas, one of the Spanish delegates, the [illegible] vice-president of the Madrid Medical academy, one of the foremost advocates of surgical treatment for tuberculosis, was next seen.

"In the Madrid hospitals," said he, "we have obtained most encouraging results by the general removal of the diseased parts of the bones. In fact we consider this the only method of effecting a radical cure. Of course such a cure treatment can only be applied in the early stages of the disease, but when taken in time my experience teaches me that every trace of the tuberculous can be eradicated. I do not think medicine in fighting the disease is destined to come into general favor. As to the [illegible] remains nothing has yet been discovered which will do more than retard or alleviate the course of the malady."

AN ADVOCATE OF CREMATION.

"After having tried vainly known remedies we have been forced to accept the hope held out by surgery. The joints are laid open, intercostal muscles removed, the diseased parts carefully taken out, the cavities remaining filled with prepared sponges, excision performed, and the patient in many cases recovers and is soon on his feet again, further indications of consumption."

Dr. Antonio Espanay Capo delivered a paper before the Madrid Academy of Medicine holds similar views. In Spain, Statistics show that about two-thirds of the population enjoy a complete immunity from consumption. Something similar is true in all countries. It is hard to account for this fact but its existence is beyond question. In many instances of about seventy per cent of consumptives recover when the disease is taken in the first stage and about 50 per cent when taken in the second. Later the recovery is doubtful.

COLORADO CITY ITEMS.

The new school house tower will contain a colossal four face clock.

The regular weekly meeting of the Ladies' Union Aid Society will be held at the residence of Mrs. Dr. Bell, on Colorado avenue, this afternoon at 3 o'clock. All members are requested to be present.

Arrangements are being made by the Colorado City Cornet band to give a grand ball on the evening of the 9th inst. The band is composed of excellent musicians and the ball will be a success.

Mrs. Dr. Bell, of Colorado City, has been appointed by the governor a delegate to the Mothers' Congress, which meets in Chicago on the 15th inst. Mrs. Bell will leave Denver on the 10th inst. and will be accompanied by Mrs. Dr. Wilson, of Colorado City

C. W. SHERWOOD, Signal Corps.

Colorado Springs vs. Solis on the base ball grounds this afternoon.

The police magistrate yesterday fined three men $5 and costs for drunkenness.

County Clerk E. J. Eaton and family are stopping at the Riggs house, Washington, D. C.

A pocketbook was lost yesterday, as will be seen by reading our "lost" column this morning.

A correction is made in the time table of the Denver, Texas and Fort Worth railroad which we publish this morning.

The Solis team has strengthened itself by the addition of Bates, the popular pitcher. He will be in the box this afternoon.

There are undelivered telegrams in the Western Union telegraph office for George T. Williams, M. Singmaster and M. L. Martin.

The GAZETTE acknowledges the receipt of a bottle of the delicious beverage, Iznaga's ginger beer which Mr. T. L. Sullivan, of this city, is now engaged in making.

Dr. J. A. Hart, formerly of Colorado Springs, is visiting in the city. For the benefit of local physicians we are authorized to state that he will only remain a few days.

The list of candidates for the republican legislative nominations has been increased by the addition of the names of Messrs. R. C. Elliott of Monument, and David Spielman of Manitou park.

Messrs. C. D. and L. B. Wheeler, prominent bankers of West Winfield, New York, and H. T. Anthony, a wholesale druggist of Utica, New York, are in the city on a visit to Mr. R. B. Taylor.

The road leading from the Mesa to Glen Eyrie is reported to be in a very bad and dangerous condition, caused by the recent heavy rains. The county commissioners will be asked to repair it immediately, as several accidents have been narrowly avoided.

Quite a number of people in this city having expressed a desire to attend the concert at Green Mountain Falls, to be given by Miss Fannie Aiken to-morrow night, a special train will be run from this city and Manitou. Miss Aiken will be assisted by good local talent.

The authorities of Arapahoe county on Sunday turned over a crazy woman by the name of Isabella O'Rourke to the sheriff of this county, claiming that she was a resident of El Paso county. Sheriff Jackson is endeavoring to find her relations and believes that her husband is living at Howbert, having removed there from Florissant.

Yesterday afternoon Justice of the Peace Corman held Charles Jones in $500 bail to appear before the grand jury at the next term of the district court for grand larceny. Jones recently broke into a car of merchandise on the Denver, Texas & Fort Worth railroad at Francisville junction, and was arrested in Denver last Friday at the instance of Superintendent R. W. Grover.

Deputy Sheriff F. H. Harrod of Cowley county, Kansas, was in the city on Friday looking for a fugitive from justice by the name of Griffin, who was wanted in that county for grand larceny. With the assistance of Sheriff Jackson he located Griffin at Howbert, in Park county, on the line of the Midland. Griffin was arrested there on Saturday, and has been taken back to Kansas.

The Sunday school of the First M. E. church will have its annual picnic at Green Mountain Falls next Thursday. A special train will leave the Santa Fe depot at 9 o'clock in the morning. Tickets, adults $1, children under 12 years of age 50 cents. All members of the Sunday school under 15 years of age will procure tickets of their teachers. Tickets may be obtained at A. Hemenway & Son's grocery after Wednesday morning.

Yesterday Mrs. E. C. Goddard filed an affidavit with the county clerk to the effect that the Bellevue Sanitarium society of Colorado Springs had been incorporated according to the laws of Colorado, with the following board of managers: Elizabeth C. Goddard, C. M. Davenport, Mrs. F. A. Waters, M. A. Garstin, Mary T. Hatch, Julia A. Wagner, Emily A. Crowell, B. F. D. Adams, M. D., Mrs. J. M. Bemis, Mrs. G. S. Barnes, Mrs. A. E. Gonzalin, Mrs. C. H. White and Mrs. J. F. Seldomridge.

On Thursday next, 23rd inst., the Sunday school of Grace Episcopal church, will be given an excursion to Cascade canon. Arrangements have been made with the Midland railway for a special train which will leave the Santa Fe depot promptly at 8:30 a. m., returning will arrive at Colorado Springs about 5 p. m. It is desired that every member of the school shall enjoy the day in the mountains, and all parents and friends are likewise cordially invited to accompany the excursion.

The manager of the Colorado Springs base ball club has placed on sale tickets good for the rest of the season. The step has been made necessary from the fact that the expenses of the team have largely exceeded the receipts, and the manager will have to disband the team if our citizens will not help him by purchasing these tickets. Colorado Springs has the best club in the state, and lovers of base ball should come forward and help keep the club together. The tickets are good for admission to the grounds and grand stand. Hereafter none but good teams will be played in this place, and every effort will be made to avoid any games with such a club as the Zacatecas fought with them last Friday.

The ball game this afternoon between the Solis team and the home club promises to be one of the closest contested games of the season. Bates, the well known Denver pitcher, will be in the box for the Solis, and Mann and Wilson will cover the points for the Grays. The Solis are just returning from a very successful tour of the state and our boys will go right to the front and will try to win both games if possible. The home team now are without doubt the strongest club in the entire state and every ball club in Denver is trying hard to defeat them. Captain Lynch has the men out for practice daily and is making every effort to strengthen the team in every possible way. The positions of the teams will be as follows:

Men	position	Men
Wilson	catcher	Mann
Fitzgerald	pitcher	Bates
Lynch	first base	Lynch
Smith	second base	Ryan
Mahoney	third base	McGuire
P. McMahon	right field	Gettinger
Englund	center field	Oakes
Hunter	center field	Hunter
Ryan	left field	Englund

THE G. A. R. EXCURSION TO COLUMBUS.

All members of the Grand Army of the Republic will remember with pleasure the delightful trip to St. Louis last year via the WABASH, and many will bear in mind that the WABASH special train was the only one from the Western Country which arrived at St. Louis on time.

As the WABASH is the SHORT LINE to St. Louis it is the Air Line to Columbus. G. A. R. men should bear this in mind and write to the undersigned for rates, time cards and Pullman accommodations. C. S. HAMPSON, No. 10 Windsor Block, Denver, Colo. 8-24-tf

T. P. R. Y.

Excursion to California open to all who wish to go. Tickets good for 80 days to go over one route and return over another. Leaves Colorado Springs September 11th, 1888. One first class fare for round trip. For rates and particulars call on or address

Oysters, in all styles, at Vinett's Dining Parlors, 14 Pike's Peak ave.

BEST LINE EAST.

The Union Pacific Ry is by all odds the "Best Line East," on account of the fast time that is made and the reasonable hours for leaving Denver. Also the close connection that is made in Union depots with the trunk lines from Kansas City, Council Bluffs, St. Louis, and Chicago (reaching all the principal cities in the east. The U. P. Ry. is also the short line to the Pacific Coast, running two trains daily west and four trains to the east daily. The evening train from Colorado Springs makes close connections in Denver with the Union Pacific Ry. 8-24tf

Bids will be received by the undersigned City Board of Trustees for the purchase of the following described city bonds, issued by said Colorado, for the purpose of funding the indebtedness of said city, and bonds to bear interest at the rate of six per cent per annum, payable semi-annually. All bids to be addressed to JAMES A. COCHRAN, Recorder, Colorado City.

MATTHEW KENNEDY!

REAL ESTATE, INSURANCE AND LOANS

NO. 9 NORTH TEJON STREET.

We represent only OLD-TIME and RELIABLE INSURANCE COMPANIES—companies that EXPECT to PAY A LOSS when it occurs, so that we can guarantee in all cases a PROMPT, EQUITABLE and SATISFACTORY adjustment of loss should a fire occur. This is worthy of consideration.

IN REAL ESTATE we aim to handle only the most desirable properties, as we find that SUCH PROPERTIES ONLY give satisfaction. We give a partial list below, to which we invite attention. NOW IS THE TIME TO INVEST, as with the fall months, the opening of the "Rock Island" and other roads there is bound to be a much greater advance. CALL AND SECURE a home now.

We are agents for LOTS IN BOULDER HEIGHTS ADDITION and only ask of Strangers and others that they look at these lots before buying elsewhere. They are the CAPITOL HILL of our city and SPEAK FOR THEMSELVES. Also for lots WEST COLORADO SPRINGS, WEST BLUFF, Parrish's Addition, etc., for parties who wish to invest in that locality. Also for FIVE and TEN acre tracts.

REPRESENTING THE FOLLOWING INSURANCE COMPANIES:

Ætna Insurance Co., of Hartford,	Cash Assets	$10,528,388 97	London Assurance,
Home Insurance Co., of New York,		7,855,000 62	Providence Washington,

GIDDINGS BROS. & WILBUR,
No. 21 South Tejon Street.

"You can fool some of the people all the time, you can fool all of the people some of the time, but you cannot fool all the people all the time."

Merchants who publish silly advertisements to ponder on this profitably.

Is it better to deal with Clothiers who claim everything and show very little—or to patronize a house that professes only what it can perform?

We have a great stock of things that men and boys wear. Our Clothing is carefully selected and well made. Choose your apparel HERE, because we can fit you. Please you—and after you once learn the merits of our goods we believe you will continue to use them.

A. ARMENTROUT,
